TARGET-01
Data purge completed.
Energy cut.
Core system deadlocked.
Wing Zero. From now on, you are no longer needed in this era. Sleep well. Nobody will disturb you.

Amidst the silence of the tomb, a dark baneful shadow once more creeps up unnoticed.
A.C.196
"Knock."
Yes, come in.

Vice foreign minister Darlian, the preparations for the interview are in order.
Thank you, Chris.
Well, let's go.
I hope you have not been inconvenienced in any way. For the duration of your stay, I am to serve as your private secretary. I have been told spare no expense with the details.
I'd like to ask you to pose your questions one at a time.
Thanks to you, it has been a pleasure, Chris.
It is a privilege to hear that from you.
Must be pretty tough on her.
Quite likely.
We've just made our first move towards becoming a nation within the Earth Sphere.
She must be pretty busy, always on the move like that.
Look who's talking.
You goin', too?
To the colony summit?
Well, this is it.
Foreign vice-minister Darlian! What is your intention in your latest visits to the colonies?
How far has the structuring of the Earth Unified Nations progressed?

Yes.
The colony representatives are currently gathering to negotiate the problems involved with the entry into the union.
Bein' head of the Winner House is tough, too, eh?
And you, Duo?
Does this fit into your work schedule?
Ah, just a little delivery work.
Can't help it if the cargo is a little late...
Duo, you...
I wonder how the others are these days...
True, we haven't been in touch for a while.
Hey, that doesn't mean they're not well, eh?
You're right.
Hya!
Ha!
Put more spirit into it!
Hya!
Master!
Wufei-dono is nowhere to be found again.
In that case, leave him be.
He has earned his rest...

HA!
It appears that I need not even ask why you're here. You did not make a secret out of your bloodlust when you approached me.
We asked you once already. Be nice and come with us.
And if I refuse?
We will make you.
You just won't take me seriously, will you?
Fine with me. If that is how you want it.
I'll accept!!
What?!
.....
Don't hide. How about showing yourselves?
Are you Chang Wufei?

Well, I'll leave the rest to you Trowa.
Hm.

There.
Eat plenty.
You're
That's the first time I've ever seen a genuine lion. My, they're big fellas.

Ralph Kurt
Wow,
you still remember me? Back then you acted like you weren't concerned with anyone else.

So, you call yourself Trowa Barton now. Just like that name back then... How ironic. I wonder what your comrades would say if they knew.

Why have you come here?
Is that anything to say to an old war buddy who came to inquire after you? I required some effort to find you.

And such an unexpected place it is... You used to be one of our best.
There is no more need for soldiers in this time.

That may not be the case.
Your point being...?

You will understand very soon.
Yeah, yeah, I'm coming.
Yes, this is Duo Maxwell.
Duo.
Heero? Hey! Well, this is a surprise. What on earth've you been up to?
Is Quatre on this colony?
Huh? Yeah, he's off to the colony meeting. We just said good-bye.
...Is something the matter?
Quatre is being targeted
What? What are you saying?!
Quatre-sama. Please, hurry.
Yes, I'm coming.
Quatre-sama?

I had a feeling like somebody was calling...
Please let me be in time!
Hey! Where do you think you're going!
There's no trespassing from here!
Shut up! Lemme through!
!!

Shit

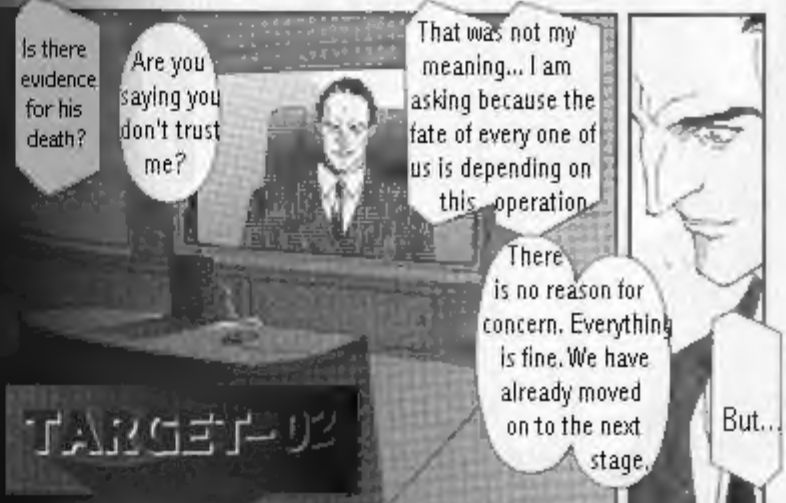
A terrorist bombing at the colony summit! What is the current situation?
The chances of survival for each of the colony representatives present at the summit are to be regarded as hopeless.



Is there evidence for his death?
Are you saying you don't trust me?
That was not my meaning... I am asking because the fate of every one of us is depending on this operation.
There is no reason for concern. Everything is fine. We have already moved on to the next stage.
But...
TARGET-02

Do you remember?

You got the devil's luck Comes with being a Gundam pilot
But who would do such a thing
What are they trying to achieve with such a crime? What? Is it because I am the colony's representative or because I am the heir of the Winner family?
Maybe it's because you're a Gundam pilot
Eh?
I had some uncommonly unwelcome company back at my hotel Snooping around Wonder whether we've become a target as well

Heero is coming too?

In this matter the whole Gundam bunch is with us And that includes him

We're interrupting the communication line for your shuttle
Fools! It's locked!

Game's up
Look for the base's specifics and a record of a transmissions
What are you hoping to accomplish?
Probably the mastermind behind the White Fang
What are you talking about?
But we're doing this for the colonies!
Although the White Fang's motives may be pure, whether it's in accord with those orchestrating it, we can't say
Then why do you want the gundams?

The Gundams are a symbol of defiance that we intend to gather the hearts of everyone to fight under!
That's Chris!
Who said such a thing?
Do you believe that?
Do you think it's right to kill Reena?
...!
Chris!
Ralph you have the right to know the truth
The truth?

Wute
Why are you here?
was just thinking,
Wow
you can see space from here
It's so mysterious.
behind this piece of glass is a world that living beings can't inhabit?
yet it seems so gentle to me
It's because you were born and raised in space

Why do people hate?
Because they're weak
I am too I can't forgive what the White Fang did
Wute
You have to be strong.
Because it's just
That's not true! You were chosen by the Gundams!

Reena

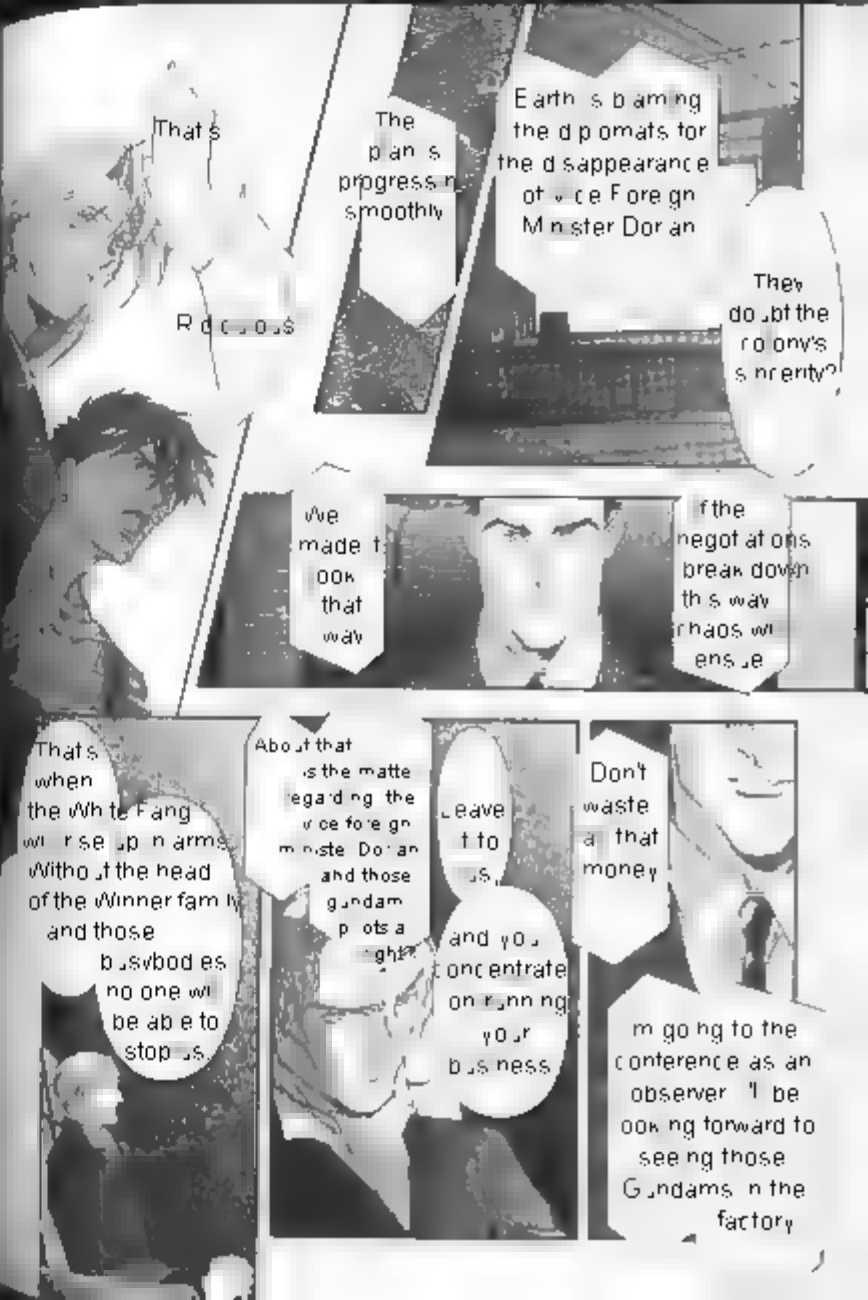
So that's the leader of the White Fang
Sogran was involved with the white fangs in the previous battle as well. He disappeared during the chaos that broke out
Addressed to that Sogran is a large sum of money from a corporation on earth
!?
The Century Discover firm it was involved in Mobile Suit production and development under the Rometeer Conglomerate
In other words, a man who deals with death. That's why he wants the Gundams. With them he can create more powerful Mobile Suits
With that, he can wage a new war



That's
Ridiculous
The plan is progressing smoothly
Earth is blaming the diplomats for the disappearance of Vice Foreign Minister Dorian
They doubt the colony's sincerity?
We made them look that way
If the negotiations break down this way chaos will ensue
That's when the White Fang will rise up in arms. Without the head of the Winner family and those bastards, no one will be able to stop us
About that, is the matter regarding the vice foreign minister Dorian and those gundam pilots a right?
Leave it to us.
And you concentrate on running your business
Don't waste all that money
I'm going to the conference as an observer. I'll be looking forward to seeing those Gundams in the factory

Petty bastard that can't think beyond turning misery into profit
Commander Sogran [illegible] is about to reach its target
There's no time
Hurry up and move in
Rodger
What do you want?
Have you come to laugh at me?
What a bad joke "Peace Independence Freedom" is swallowed as his preachings was [illegible]ooted
for what reason have been fighting?
might have been jealous of you
Trowa?

You had enemies you hated and important people you wanted to protect
But I didn't have anything
I thought you were an unwavering perfect soldier
As a weapon for war yes
You've changed Trowa
I can never regain my past but I can make my future
Now I think that it was a sad way for a person to live
Ralph you still have something you want to protect right?
Something to protect
What did you want to talk about Heero?
This is the monitor room
Not with me
Reena sama you truly think that Earth and the colonies can coexist?
firmly believe it
Chris

It takes great courage to forgive
Heero?
Pursuit
It appears to be a mobile suit unit
Were surrounded
It's the White Fang. They must have thought I failed and dispatched a new unit.
We don't have our Gundams
Heero! what are you doing?
I'm blowing up this colony

Wait! There's a energy signal from the colony. It's growing
Target sighted. Beginning operation
What?
What's the meaning of this Sogran
The colony set destructed?!
It means we weren't able to predict the Gundam Pilots actions
I pay so much money and you can't even get the gundams
What about the conference?
Devote yourself to creating as much wind and waves between the colonies and earth
You just want to return a war torn state right?
Leave the rest to me
Alright won't forget those words
So you mean to say that the Colonies had nothing to do with the Foreign Minister Dorans disappearance?
I didn't mean to say that. It's just
Do you mean to be bad if they knew the truth?
What do you mean by that?
Excuse me
However, it's a common opinion on Earth that the Colonies hold a negative view of the Earth.

Everyone please be quiet
Quatre Raberba Winner!
You seem surprised did you think I was dead?
Vice Foreign Minister Dorian
I'm sorry to have caused so much worry for everyone As you can see, I'm safe
will explain this situation therefore there's no reason for the earth and the colonies to be opposing each other in this
see
I suppose that it shouldn't be odd that a company under the Romefeller Conglomerate should have a factory on the moon
But we can't have them building Mobile Suits now can we
It means we must eliminate the tricky bastard that intends to start an unjust war
Blow this place up of course
Where are you going Century Discover President?

Alright alright
If you don't want to die shut up
not like we'd want to have counterfeit gundams made here Man our affinity with the moon sucks
In regard to the fire on the lunar factory it has been revealed to be an weapons manufacturing plant The president of Century Discover has been physically taken into custody
Deviating from planst cause such inconveniences
Ralph!
You're alive!
Why did you gather the White Fang? For money?
see so we've been found out
That's enough don't betray Ralph and the others any more
You!
see you gundam pilots are good
How about I won't you join me? With the gundams we can make conquering the Earth Sphere a

We can do what Treize and M ard Peacecraft weren't abe to

yeah Everyone s do ng whatever they can
The remnants of the White Fang have broken up
The mastermind of a new war was stopped.

Sacrifices were made
I can't forget it
Quatre
I'm fine
I know what I have to do
I've been thinking about it for a while
The grandams are a very important factor to our lives
A very dear partner
Yeah
But
They're not needed in the coming age of peace
Quatre?!
Do
We're being forced into a decision
Before another incident like this happens
That's the best way
Alright
We've come to a resolution too
Thank you Dorothy
Don't gimme that look
We're headed for an era of peace this is proof of it

you're right
Excuse me I apologize for interrupting your meditations
I don't mind
I heard you coming
Who are you?
I have come at the behest of a certain someone
Behest?
You know this person very well A person to whom you have deep connections with
Changwuteshi As a gundam pilot I have a request for you
Tell me more

What are you up to?
Don't give me that scary face
I must be a simple messenger today
I asked what are you up to?

Trowa
There's the landing point
Don't be late in sending the Wing ZERO
understood
What?
I thought you might say that you wanted to manage it on your own or something like that
That's why I came out all the way here to persuade you
I have no objections Return to nothingness the way you think is best
Thank you Trowa
After all it's rather lonely to be by oneself
Oh by the way do you know where Wufei is Have you had contact from him?
I have no idea where he is
Quatre will manage to ensure there's nothing left
No objections then?
I sent him a message using the Gundam circuit

So that was the only way? He scattered so fast after the Moon Base.
He's thinking of something.
I wonder if he'll go along with the Gundam destruction?
.....
I guess it's up to him to decide.
Oho...
the missy looks really well, isn't that good

Nataku
.....

Lend me your strength this once.
I must find the answer to some-thing...
The answer .....
They may have it....
